

Unique Autocraft

Nº.3 SOUTH ROAD, TEMPLEFIELDS
HARLOW, ESSEX CM20 2AP
TEL: 0279 412794

Dear

Thank you for your interest in our PYTHON ROADSTER. We hope the enclosed Brochure reaches you safely and is of interest.

It should be noted that when producing this Product/Price list, we have ensured that every single item we manufacture or supply has been included.

It is equally important to point out to the builder that the vehicle can be constructed using only a handful of components from us; the remainder may be made or sourced elsewhere, with the possibility of financial saving. This is due to the fact that Unique Autocraft has used its time and facilities to obtain and stock such components - the enthusiasts' time, however, is offered as a free service.

When attempting direct cost comparisons, it must be remembered that Unique Autocraft offer a 'Package' cost, which will include a whole host of extras. These may be just nuts and bolts or other hardware, but they may be difficult to obtain from a High Street type of shop, or may not be available in the small quantities required. However, we will always be willing to split packages if required by the customer.

Finally, please remember that the PYTHON ROADSTER is proven through many thousands of miles of use and almost a decade of customer satisfaction.

We hope you enjoy the Brochure and look forward to your personal visit.

Yours sincerely

ROB, KRIS and PETE
